

01-02-1984, p. 4

advanced for his father. No father eggs John on. John says no. No father hits John. John fights back. No father subdues the son, and then lectures the son ("after all we've done for you...") and then the son cries. No father crows and struts about in victory. That's the pattern and it makes me mad.

No more inaugural went on for a couple hours. TD came by and took a couple photographs for the PHMC -- window repair in progress, etc. RGT went back to Jermyn and Paul and JVB and I walked up 6th Avenue -- JVB pointed out 18-6th Ave -- an old store interior is quietly sitting there on 6th Avenue. We then went into the CPL and noted that someone was in there washing the floor. JVB investigated. A college student has been employed for one month. Paul suggested that JVB was perhaps going to be fired.

I returned to 8HL; JVB & Paul went to 46 Canaan & JVB installed a phone in his bedroom. At about 5:45 PM he telephoned me, on his new phone, and then reported that he had telephoned Solomon Bratner & asked for Bob Scully. JVB used the 800-221-7065, extension 7242 number. I asked what he would have said if RWS had answered and JVB said that he would have thought of something. As it was, JVB was told that RWS was not there. JVB telephoned Solomon on the 800 number just to try out his new phone in his bedroom. I understand that response.

8:30 PM - RGT has developed the film from today & will possibly come by later on with prints of the "window repair in action."

RGT did not come by. I spent the evening arranging the birth, marriage and death certificates for Carbondale (1890-1912) that John Klimkewicz "died out" and arranged in order. The introductory pages for those documents, which I will take down to Micrographix International tomorrow morning, are ^{not} shown on the following page (as originally planned).
